CORE COMPETENCIES

Constructions Skills...With over 40 years of experience in a wide variety of sectors in the constructions industry you can be assured your work will be undertaken by an expert. Practices have been developed to reduce waste and maximise efficiency.

State of the art equipment...Use of Thermal Imaging Cameras and Drone Technology allow our company to access areas such as multi storey roofs that other companies are unable to access.

Risk Management...Safety is our priority! With an emphasis on safety and strict adherence to workplace/site safety Hit The Mark is proud to announce that it has had no injuries since its inception. We reduce risk, not just manage it! Our motto is “If it is not safe, don’t do it”.

Management Skills...With decades of experience in all levels of management in the constructions industry we have developed exceptional projects, time and cost management skills to ensure we meet deadlines to a high standard and in a timely manner.

Professionalism...With over 40 years of experience in a wide variety of sectors in the constructions industry you can count on us to be professional in every manner, whether it is face to face interactions, written or email communications or company meetings.

Experienced Staff...With over 40 years of experience in a wide variety of sectors in the constructions industry including residential, civil, industrial and commercial construction, as well as working for overseas construction companies in Australia.

Processes...We are a process driven organisation. We have learnt a lot about building over the last few decades- “measure twice, cut once.” When you perfect a process, stick with it! When something doesn’t work, look for a better process to get the job done.

DIFFERENTIATORS

What sets Hit The Mark apart from other companies in the construction industry?

Several decades of extensive experience from trade through to National Corporate Management has placed us in a position at the top of the construction industry.

Hit The Mark is the first company in Australia to use cutting-edge drone technology to inspect roofs and multistorey buildings, which eliminates the high risk practice of accessing high areas during inspections. Hit The Mark is fully certified in remote aviation (drone operations);

- ❖ Remote pilot license (RePL)
- ❖ Aeronautical Radio Operators License (AROC)
- ❖ English Language Proficiency (ELP aviation)
- ❖ Remote Piloted Aircraft Operations Certificate (ReOC)

Our highly detailed reports make us stand out against our competition.
